## FROST PLAYS HAVOC WITH FRUIT CROP

Peaches, Apples, Grapes, Pears, and Prunes Will be an Eighty Per Cent Loss.

Never before has a May frost done such havoc in Utah. Locally it got about eighty per cent of the apples, peaches, pears, grapes, prunes and strawberries. Many orchards visited were a total loss, with probably a scattering on some of the trees. Near the mountain the frost seems not to have been so severe. James H. Walker has three acres of peaches that have not been hurt at all. Several apple orchards have a fair supply, but these are the great exception.

Pears, radishes and alfalfa were frozen down, and potatoes and beans are black. Young beets were slightly injured.

On Provo Bench the loss was almost complete. Even the favored belt, usually protected by the canyon breeze is almost a total loss. W. H. Homer visited ten peach orchards without finding a single peach. Geo. Tomlinson who has 12 acres of berries will lose thousands of dollars. One three-acre tract on which he had running water suffered but slight injury.

Other parts of the state were also hit hard. In Brigham City, the peaches are only slightly hurt. In Davis County many had planted out their young tomatoes all of which were frozen. This will be a great loss as it is now too late to get more young plants.

## PROVO MACHINERY FOR PLEASANT GROVE FACTORY

The Pleasant Grove Canning Co. this week purchased the boiler formerly owned by the Garden City Canning Co., of Provo. Much of the other equipment formerly owned by the Provo concern has been added to the local plant. The car load of new machinery from Baltimore is due to arrive next week.

S. taking more points than any time in the history. Carlson also is a strong man on these races. The three first place men will go to the State High School meet Friday and we look for them to again bring home the laurels.

## RICHINS GETS BACK FINE

The City the past week paid back to Frank Richins the \$50 fine collected for selling a bottle of liquor several months ago.
